## System Highlights

- CNC Cut Powder Coated Aluminium Shelter Assembled with Heavy Duty Stainless Steel Rivet System
- Dual Locking Gas Shock Assisted Side Doors with Three Position Click Hinges
- 4" Base With Side Forklift Access (Use for initial installation only. Not to be utilized for moving shelters with DEF in the tanks.)
- Interior Anchoring Hole Points
- Fits Most Commercial and Industrial Fuel Islands
- DEF Approved Tanks with a Sealed Micro-Matic Dispense and Fill System
- Tanks Constructed from UL Rated Food Grade Polyethylene Resins with Extra Strength Corrugated Side Walls
- Self-Priming Hornet Vein Pump
- Stainless Steel Automatic Shut-Off Nozzle
- 15' Delivery Hose
- Digital Dispense Meter
- Side Mounted Electrical Panel with Passive Vent
- 4 GFCI-15A Dual Duplex Outlets
- Single Phase, 115V Exterior Junction Box (Provided)
- Optional DEF Hose Reel w/ 25' Retractable Hose
- Optional Solid Floor Plate (Powder Coated Aluminium)
- Optional Pulse Meter
- Ships fully assembled for efficient site installation.
