

Metal Tube Extend Working Tools

- Position: tube in the active oil zone for best sampling
- Cut: faster, sharper cuts for steel or stainless steel
- Ream: remove inner and outer burs quickly
- Bend: provides tightest hand bends for best sampling positioning

Overview

Metal Tube Benders

Part#	Description
364FH03	Tube Bender for 3/16" OD tubing
364FHB04	Swivel Tube Bender for 1/4" OD tubing
364FHB05	Swivel Tube Bender for 5/16" OD tubing

- Each tool bends one size. Calibrated to show angle of bend.
- Makes smooth, tight radius with no scoring or flattening
- Swivel handle tube bender allows for tight up to 180 deg bends
- Weight 1 lb. 364FH03 = 0.5 lb

Metal Tube Reamers

Part#	Description
208FSS	Reamer for steel and stainless steel tubing
208-F	Reamer for steel tubing

- Reamers for stainless steel and steel
- Tungsten hardened tool steel cutter blades
- Weight: 0.63 lbs

Metal Tube Cutters

Part#	Description
TC1050	Mini Tube Cutter 3/16", 1/4", 5/16" OD tubing
S32633	Replacement Mini Cutter Wheel (Steel)

- Cut tight locations, swing reduces 1 1/4"
- Length 1 3/4" Enclosed feed screw, stainless steel rollers
- Weight 2.5 oz.

Part#	Description
TC1000	Tube Cutter 3/16", 1/4", 5/16" OD tubing (Steel)
S75015	Replacement General Purpose Cutter Wheel (Steel)
TC1010	Tube Cutter 3/16", 1/4", 5/16" OD Tubing (Stainless)
S75046	Replacement Hardened Cutter Wheel (Stainless)

- Hardened Steel thrust bearing, aluminum alloy body
- Foldaway hardened steel reamer removes inside burrs
- Length: 5", Weight: 6.5 oz Flare groove.
