STAR VARIO - Product Overview

- LCD display with push button shows discharge period, LC size and operating status

- Setting: 1, 2, 3, ...12 months & LC size

Simple and self-explanatory operation

Precise settings, based on manufacturer recommendations, prevent lubricant starvation and save lubricant

Settings can be changed at any time

System can be turned off for extended equipment shut down

- Electromechanical, reusable drive unit with battery pack

- All around visible LED lights signal function and errors

Reliable, precise lubricant discharge independent of temperature and counter pressure

Short ROI through reduced follow-up costs

Quick function control from a distance saves time and improves overall workflow

- Pressure build-up to 6 bar allows remote mounting with tubes up to 5 m

- Purge function

Installation at safe and easy-to-access places reduces workplace accidents and saves time
Reduces equipment downtime since the exchange can be carried out while the machines are running
Lubrication point can be purged to clear blockages

Applications

perma STAR VARIO is used for single-point lubrication of roller and sliding bearings, sliding guides, open gears, gear racks, spindles, shaft seals, and chains. This lubrication system is ideal for applications that require precise lubricant metering. It is a preferred system for electric motors with very specific relubrication amounts. perma STAR VARIO is protected against dust and water jets when the individual parts are assembled correctly.
